Subject Index to Volume 30

A

- Abscess
 - intradiaphragmatic, 891
 - splenic, Crohn's colitis and, 802
- Absorption
 - intestinal resection and, in rats, 154
 - small bowel resection and, in monkeys, 483
- Achalasia, sphincter pressure and, 941
- Acid reflux test, analysis, 739
- Acid secretion, gastric
 - magnesium and, 1127
 - in monkeys, 82
- Acute fatty liver of pregnancy (letter), 601
- Adenoma, villous, diarrhea and, 637
- β -Adrenoceptor, rectosigmoid motility and, 536
- AIDS, *Mycobacterium avium* and, 497
- Alcohol
 - abuse, pancreas and, 65
 - pancreas and, in hamsters, 168
- Alcoholism
 - gamma-glutamyl transpeptidase and, 211
 - selenium and 838
- Alkaline phosphatases, in rats, 564
- Alkaline response, prednisolone and, in rats, 1166
- Amino acids
 - hepatitis and, 819
 - pancreatic secretion and, 541
- [14 C]Aminopyrine, cirrhosis and, 813
- Ampicillin, cholesterol secretion and, 253
- Amylase, serum, pancreatitis and (letter), 92
- Angelchik prosthesis, reflux and, 723
- Anismus, constipation and, 413
- Anorexia nervosa, gastric emptying and, 713
- Antacids
 - food and, 522
 - liquid vs tablets, 1049
- Antibodies
 - lymphocytotoxic, cirrhosis and, 829
 - monoclonal, colon tissue and, in tamarins, 141S†
- Antigens, colon tissue and, in tamarins, 141S†

- α_1 -Antitrypsin, Crohn's disease and, 229
- Antiulcer therapy, 36S*
- Appendicolith, 184
- Arachidonic acid, sulfasalazine and, 1161
- Arbaprostil, gastric pH and, 612
- Asbestos, gastrointestinal cancer and, 1189
- Ascites, peritoneovenous shunts and, 1104
- Aspirin
 - gastroduodenal motility and, 513
 - misoprostol and, 605
 - prostaglandin and (letter), 408

B

- Balloon cytology, esophageal cancer and, 845
- Bentiromide test, cystic fibrosis and, 928
- Bicarbonate secretion, mucosal protection and, 63S*
- Bile
 - acid excretion, colon cancer and, 852
 - duodenal exclusion and, in dogs, 954
 - hepatic, formation, in rabbits, 558
 - salt reflux, duodenal reflux and, 733
 - secretin and, 440
 - ulcer and, in rats, 240
- Bisacodyl, constipation and, 289
- Blood flow, gastric, mucosal barrier and, 77S*
- Bombesin, duodenal ulcer and, 1092
- Book reviews
 - Acute Pancreatitis: An Interdisciplinary Synopsis, 507
 - Advances in Gastrointestinal Surgery, 1210
 - Atlas of Stomal Pathology, 95
 - Celiac Disease, 1115
 - Color Atlas of Liver Pathology, 191
 - Controversies in Gastroenterology, 1114
 - Current Therapy of Gastrointestinal Disorders, 94
 - Gastroenterological Surgery, 94
 - Handbook of Gastrointestinal Emergencies, 811
 - Mechanisms of Mucosal Protection in the Upper Gastrointestinal Tract, 507

*November Supplement.

†December Supplement.

- Nutritional Assessment, 1114
 Nutritional Support in Hospital Practice, 1114
 Pancreatitis: Concepts and Classification, 1210
 Pathology of the Liver and Biliary Tract, 94
 Progress in Gastroenterology, Vol IV, 603
 Radiographic Interpretation of ERCP. A Clinical Atlas, 191
 Rectal and Anal Cancers. Conservative Treatment by Irradiation—An Alternative to Radical Surgery, 906
 Textbook of Cystic Fibrosis, 603
 The Biliary Tract, Clinical Surgery International Series, Vol 5, 811
 Viral Hepatitis and Delta Infection, 906
 Bowel disease, inflammatory
 animal models, 3S†
 diagnosis, 11S†
 granulocyte scanning and, 1156
 (letter), 410
 neutrophils and, 139
 pancreatitis and, 1121
 Bowel resection
 G cells and, in dogs, 236
 gastrin and, in dogs, 236
 Brain-stem lesion, motility and, 419
 Bread-barium swallow (letter), 408

C
 Calcium, gastric mucosa and, in rats, 1072
Campylobacter, diarrhea and, in marmosets, 72S†
 Cancer
 colonic
 animal models, 103S†
 bile acid excretion and, 852
 chromosomal markers and, 134S†
 colitis and, 114S†
 histology and, in tamarins, 119S†
 pathology, in tamarins, 107S†
 rodent models, 87S†
 colorectal, hemocult screening and, 860
 esophageal, balloon cytology and, 845
 gastric, double-channel pylorus and, 269
 gastrointestinal, asbestos and, 1189
 pancreatic secretory protein and, 200
Candida albicans, gastric ulcer and, 178
 Carbohydrates
 gastric emptying and, 52
 pancreatic polypeptide and, 52
 Carcinogenesis, colonic, in marmosets, 85S†

 Cell proliferation, epithelial, mucosa and, 1034
 Chenodeoxycholic acid, bile and serum levels and, 650
 Cholesterol
 diet and, 301
 esterase, intestinal mucosa and, 1053
 secretion, ampicillin and, 253
 ursodeoxycholic acid and, 301
 Cholestyramine
 lipids and, 468
 mineral metabolism and, 477
 Chorioretinopathy, ulcerative colitis and, 896
 Chromosome markers, colon cancer and, 134S†
 Cimetidine
 duodenal ulcer and, 171S*
 esophagitis and, 321
 gastric ulcer and 178S*
 misoprostol vs, 133S*, 171S*, 178S*
 Cirrhosis
 Laennec's, pleural effusion and, 88
 predictors of survival, 813
 primary biliary, lymphocytotoxic antibodies and, 829
 zinc and, 329
 Colitis
 characterization, in tamarins, 52S†
 colon cancer and, 114S†
 histology, 45S†
 infection and, in marmosets, 69S†
 tamarins and, 38†, 59S†
 ulcerative
 chorioretinopathy and, 896
 diagnosis (letter), 1019
 experimental models, 40S†
 glycoproteins and, 147S†
 purpura and, 495
 viral agents and, in marmosets, 78S†, 80S†
 Colon
 cancer, see Cancer, colonic
 carcinogenesis and, in marmosets, 85S†
 disease, tamarins and, 54S†
 interposition, absorption and, in monkeys, 483
 lymphocytes in, 143
 motility, stress and, 40
 myoelectric activity, 295
 neoplasia pathology, in marmosets, 126S†
 response to eating, 33, 124
 Constipation
 anismus and, 413
 bisacodyl and, 289
 Coronavirus-like particles, diarrhea and, in marmosets, 72†

SUBJECT INDEX TO VOLUME 30

Crohn's disease

- α_1 -antitrypsin and, 229
- computed tomography and, 701
- hypothyroidism and, 134
- leukemia and (letter), 410
- 6-mercaptopurine and, 58
- splenic abscess and, 802
- thyrotropin and, 134
- Cysteamine, duodenal ulcers and, in rats, 161
- Cystic fibrosis, bentiromide test and, 928
- Cytoprotection
 - clinical, 81S*
 - mechanisms (letter), 697
 - misoprostol and, 194S*

D

Diabetes

- domperidone and, 1
- gastric emptying and, 1, 10
- metoclopramide and, 10

Dialysis, peritoneal, catheter malfunction and, 465

Diarrhea

- adrenal pheochromocytoma and, 1201
- Campylobacter* and, in marmosets, 72S†
- coronavirus-like particles and, in marmosets, 72S†
- hypogammaglobulinemia and, 1149
- villous adenoma and, 637
- VIPoma and, 588

Diet, pancreas and, 204

Disulfiram, hepatitis and, 834

Diverticulitis, sigmoid, in twins, 183

Diverticulum

- duodenal, excision, 275
- rupture (letter), 698

Domperidone

- diabetes and, 1
- gastric emptying and, 1

Dumping syndrome, peptide YY and, 1145

Duodenitis, duodenal ulcer and, 624

Duodenum

- bile exclusion and, in dogs, 954
- ferritin and, 630
- lysozyme and, 630
- reflux, bile salt reflux and, 733
- substance P and, in opossums, 664
- ulcer healing and, 45
- Dyspepsia, gastrointestinal inflammation and, 313

E

Emboli, atherosclerotic (letter), 506

End products, digestive, pancreatic secretion and, 445

Endorphins, pancreatic secretion and, in rats, 257

Enterocytes, enterokinase and, in rats 1174

Enzymes

- esophageal impaction and, 456
- pancreatic, hormonal stimulation and, 552

Esophagitis

- cimetidine and, 321
- ranitidine and, 321
- reflux, motor function and, 529

Esophagus

- achalasia and, 941
- balloon cytology, 845
- cell proliferation, hydrochloric acid and, in dogs, 884
- contraction abnormalities, 1065
- lidocaine and, in baboons, 1085
- meat impaction digestion and, 456
- motility disorders (letter), 188
- motor function, esophagitis and, 529
- nutcracker (letter), 188
- sclerotherapy and, 29

Ethanol

- colonic mucosa and, in rats, 866
- mixed function oxidation and, 334
- prostaglandin protection and, in rats, 866

F

Famotidine, efficacy, 308

Ferritin, duodenal mucosa and, 630

Fiber

- cholesterol absorption and, 301
- dietary, muscle cell size and, in rats 247

Fibronectin, hepatic failure and, 1028

Fluorescein, pancreatic function and, 655

Food, antacids and, 522

G

G cells, bowel resection and, in dogs 236

Gallstone dissolution, chronic active hepatitis and, 642

Gamma-glutamyl transpeptidase, alcoholism and, 211
 Gas, colonic, simethicone and, 426
 Gastrectomy, gastric ulcer and, 353
 Gastrin
 bowel resection and, in dogs, 236
 G-17, ulcer and 1092
 mucosal maturation and, in rats, 1079
 serum, RP40749 and, 617
 Gastrointestinal tract, histamine receptors and, 998
 Giardiasis, chronic, 215
 Glucose, intestinal adaptation and, in rats, 675
 Glycoproteins
 tamarins and, 36S†
 ulcerative colitis and, 147S†
 Granulocyte scanning, inflammatory bowel disease and, 1156
 Guillain-Barré diarrhea (letter), 1112

H

Hemocult screening, cost benefits, 860
 Hemorrhage, gastric, enteric-coated aspirin and, 509
 Hepatitis
 acute viral, serological diagnosis, 1022
 chronic active
 amino acids and, 819
 autoimmune, 824
 hepatitis B virus and, 97
 gallstone dissolution and, 642
 disulfiram and, 834
 Histamine receptors, gastrointestinal tract and, 998
 Histology
 tamarin colitis, 45S†
 tamarin colon cancer, 119S†
 Hormone stimulation, pancreatitis and, 552
 Hydrochloric acid, cell proliferation and, in dogs, 884
 Hyperpigmentation, leiomyosarcoma and, 1108
 Hypogammaglobulinemia, diarrhea and, 1149
 Hypothyroidism, Crohn's disease and, 134

I

Ibuprofen, prostaglandins and, 993
 Immune function
 lamina propria and, 67S†
 marmosets and, 61S†

Immunoreactivity, trypsin-like, steatorrhea and (letter), 807
 Infection, colitis and, in marmosets, 69S†
 Inflammation, gastroduodenal, dyspepsia and, 313
 Intestine
 adaptation, glucose and, in rats, 675
 muscle contraction recording, 119
 pseudoobstruction, 282
 resection, absorption and, in rats, 154
 small, leukocytes and, in mice, 149
 transit, pancreas and, 78
 Isolamylase
 distribution (letter), 505
 test (letter), 1209
 Isomethptene, pancreatic secretion and, 114

J

Jejunum
 food response and, in cats, 877
 pentagastrin response and, in cats, 877
 selenium absorption and, in dogs, 489

K

Kupffer cells, hepatic failure and, 1028

L

Lamina propria, immune function and, 67S†
 Leiomyosarcoma, hyperpigmentation and, 1108
 Leukemia, Crohn's disease and, 410
 Leukocytes, small intestinal lumen and, in mice, 149
 Lidocaine, esophageal effects, in baboons, 1085
 Lipids, cholestyramine and, 468
 Liver
 blood flow, rantiidine and, 1043
 damage, methotrexate and, 104
 disease, selenium and, 838
 failure, fulminant
 fibronectin and, 1028
 Kupffer cells and, 1028

SUBJECT INDEX TO VOLUME 30

Lung disease, sulfasalazine and, 901
 Lymphocytes, colon biopsy and, 143
 Lysozyme, duodenal mucosa and, 630

M

Magnesium, gastric acid secretion and, 1127
 Malnutrition, gastric surgery and, 193
 Manometry, endoscopic
 chronic pancreatitis and, 225
 secretin and, 909
 Marmoset
 colony management, 14S†
 gastrointestinal disease and, 52S†
 husbandry, 17S†
 immune function, 61S†
 nutrition, 17S†
 6-Mercaptopurine, Crohn's disease and, 58
 Methotrexate, hepatotoxicity and, 104
 Metoclopramide
 diabetes and, 10
 gastric emptying and, 10
 Mineral metabolism, cholestyramine and, 477
 Misoprostol
 aspirin damage and, 605
 chemistry of, 114S*
 cimetidine vs, 133S*, 171S*, 178S*
 clinical safety, 185S*
 cytoprotection and, 194S*
 duodenal ulcers and, 147S*, 159S*, 171S*
 gastric morphology and, 129S*
 gastric ulcer and, 178S*
 metabolism of, 126S*
 pharmacology of 118S*, 136S*
 toxicology of, 142S*
 ulcer healing and, 164S*
 MK-208, gastric secretion and, 1139
 Monoclonal antibodies, colon tissue and, in tamars, 141S†
 Morphology, gastric, misoprostol and, 129S*
 Motilin, vagus and, in dogs, 946
 Motility
 colonic
 inhibition of, in rats, 749
 stress and, 40
 esophageal, sclerotherapy and, 29
 gastric ulcer and, 16
 gastroduodenal, 219
 aspirin and, 513

 prostaglandin E₂ and, 513
 gastrointestinal
 symposium poster abstracts, 756
 symposium program, 755
 intestinal, brain-stem lesion and, 419
 rectosigmoid, β -adrenoceptor and, 536
 Motor activity, gastric, prostaglandin and, in rats, 1181
 Mucin, ulcerative colitis and, 147S†
 Mucosa
 bicarbonate secretion and, 63S*
 epithelial cell proliferation and, 1034
 gastric
 ionic calcium and, in rats, 1072
 prolapse (letter), 505
 intestinal, cholesterol esterase and, 1053
 maturation, gastrin and, in rats, 1079
 prostaglandins and, 83S*
 Mucosal barrier, gastric, 69S*
 blood flow and, 77S*
 Mucus, adherent vs soluble, 55S*
 Muscle cell size, dietary fiber and, in rats, 247
Mycobacterium avium, AIDS and, 497
 Myoelectric complex, migrating, in rabbits, 742

N

Necrosis, skin, vasopressin and, 460
 Neurotensin, meal response and, 129
 Neutrophils and, inflammatory bowel disease and, 139
 Nifedipine, gastric emptying and, 710

O

Oxidation, mixed function, ethanol and, 334

P

PABA
 cystic fibrosis and, 928
 pancreatic function and, 655

Pancreas

- alcohol and, in hamsters, 168
 - American Pancreatic Association abstracts, 961
 - diet and, 204
 - divisum, 582
 - function
 - pancreatitis and, 1117, 1199
 - serum fluorescein and, 655
 - serum PABA and, 655
 - trypsin inhibitor and, 263
 - phlegmon, 918
 - secretion
 - alcohol abuse and, 65
 - amino acids and, 541
 - digestive end products and, 445
 - endorphins and, 257
 - intestinal transit and, 78
 - isometheptene and, 114
 - ulcer and, in rats, 240
